BREAKOUT SESSION SUMMARIES

A. Three Year Building Renewal Plans

This session will review the SFB's yearly Building Renewal report. The SFB has developed online reporting software that will allow districts to submit their required three year plans via the Internet. The software will document last year's budget submittal and actual expenditures. It will also allow the districts to plan and track long term budgeting for projects that require more than one year's Building Renewal allocation.

Presenter: Dean Gray, SFB

B. Building Your School and the Impact of Inflation

This session will explain the design criteria for new schools and answer the many questions as to what items the SFB will fund. We'll also discuss the procedure for using CM@Risk and the policies that apply when working with an inflationary project.

Presenters: John Arnold, SFB; Al Flores, Vail Unified

C. Capital Planning and Legislative Issues

This session will discuss the capital planning process. The SFB has added a demographer to staff and is developing an online capacity calculator to assist in district's projections for new space. We will also discuss legislative issues.

Presenters: Monica Petersen, SFB; Dr. Skip Brown, Consultant

D. Three Year Building Renewal Plans

Repeat of Session A.

E. Sustainability-Energy Efficiency

This session will discuss LEED (Leadership in Energy Efficient Design) and Green Building Design. We will explain how to implement a Silver Level school and the costs associated with achieving this level of certification.

Presenters: Sameer Pandey, SFB; David Peterson, Scottsdale USD

F. Working with Government Agencies and Home Developers for Long Term Planning

Geared towards districts that are planning future growth, this session would assist districts in working with the various entities involved in the planning of future schools. Topics include working with city planners and home developers to identify and reserve suitable school sites, planning for infrastructure, and developing intergovernmental agreements and joint use plans.

Presenters: Tom Halverstadt, SFB; Scott Thompson, Dysart Unified, Keith Vaughan, Gilbert Unified
